TITLE : ALGA-KILLING DECOMPOSING DETERGENT COMPOSITION

ABSTRACT : PURPOSE: An alga-killing decomposing detergent capable of destroying alga, making cycle of their regeneration long, decomposing easily carcasses of destroyed alga, cleaning and discharging easily them by flow, obtained by blending a boron compound such as boric acid, etc. as a main component with hydrogen peroxide.

CONSTITUTION: A boron compound such as boric acid, sodium perborate, zinc borate, potassium borate, magnesium borate as a main component is blended with a peroxide such as hydrogen peroxide, magnesium peroxide, sodium peroxide, or barium peroxide, to give an alga-killing decomposing detergent showing excellent effect on decomposing action on alga besides killing action on alga. The concentration and blending ratio of the composition solution is controlled depending upon the size of water tank and state of attachment and occurrence of alga of waste water cooler.
